

COMP 125: Basics of Computer Organization

Week 06, Lecture 10

Agenda

- Interaction with Elements
 - Clicking
 - Push/pop
 - Resizing

Interaction

- [Input box](#)
- [Button](#)
- [Checkbox](#)
- [Drop-down](#)
- [Slider](#)
- [Radio buttons](#)

Interaction: How does it work?

- Tell JavaScript “watch for this interaction with that item”
- Need:
 - To specify the interaction we want it to watch for
 - To specify the item we’re concerned about
 - To specify the action we want it to take

Examples with the mouse:

- [Mouse clicked](#)
- Mouse [pressed](#) or [released](#)

Interaction: How does it work?

Example:

- [Grouchy Face](#)
- [Form](#)
